Pharmacy Options Explanation

HealthPass offers many Rx options. The chart below will help you better understand your Rx benefits. For the applicable formulary list please visit www.healthpass.com/forms.

Rx Options:

Tier 1 Multi Source Generic: Generic drugs are ones which no longer have or never had patent protection and are generally referred to by their chemical names.

Tier 2 Brand and Single Source Generic: Brand name drugs may still have patent protection so they can only be produced by the creating pharmaceutical company or those companies licensed by the creating company.

Tier 3 Non-Formulary: Drugs are generally placed on the non-preferred list only when there is a preferred drug that offers the same therapeutic benefit or there is an approved generic available.
